

Printing the AVS during Epic Print Failure

When there is a Printing failure alert from Partners for EPIC the AVS can be printed using network printing.

1. Enter the patient record
2. From the summary page, enter **AVS** in the report box
3. When the AVS is presented; right click on the report and select print.
4. Choose your printer and select PRINT

The screenshot shows the Epic EMR interface for patient Mrtzerotwofour Mvhmrttest. The 'Report: Inpatient AVS' dropdown menu is highlighted with a red box. The page title is 'After Visit Summary for Mvhmrttest Mrtzerotwofour'. The patient information includes MRN: 891921, DOB: 12/12/1966, and Admission Date: 3/15/2017. The 'Find' button in the context menu is also highlighted with a red box.

The screenshot shows the Windows Print dialog box. The 'General' tab is selected, showing a list of printers. The printer 'Beverly Follow Me Printing Black-White on nsmcequitra...' is selected. The status is 'Ready', and the location is 'Auto Created Client Printer W0164740'. The page range is set to 'All', and the number of copies is 1.
